

Manitoba Veterinary Medical Association

Personal Continuing Education Summary Sheet

The MVMA expects its members to maintain and extend their knowledge and skills throughout their professional career. Accordingly, Manitoba Veterinary Medical Association legislation requires the province's licensed to practice veterinarians obtain 15 hours of continuing education (CE) credits each year.

CE is defined as a scientific or non-scientific program that can be justified to be within the scope of your veterinary practice.

Many different activities can qualify as CE credit and you need to consider which are most appropriate for you. Below you will find types of CE that eligible for credit. The complete MVMA CE by-law is posted at www.mvma.ca, "About MVMA", "Legislation & By-laws".

Type of CE	Credit Hours Granted
Seminars, conferences, workshops, wet labs, distance education or learning, on-site study visits to accredited veterinary schools.	1 credit per hour
Independent study (online, CD-Rom, DVD, journals, CE articles)	As approved by Registry of Approved Continuing Education (RACE) (www.aavsb.org / RACE). Credit assigned by course designer
Post-doctoral degree programs or fellowships at accredited veterinary schools, writing NEB exams.	30 credit hours
Other continuing education formats	May be accepted for credit with proof it is within the scope of your veterinary practice

Personal CE Summary Sheet

It is your responsibility to keep a record of the CE activities you have undertaken. However, in an effort to help you keep track of CE credits, the MVMA is pleased to offer this CE Record Card. Over the course of the year, we recommend you update it following your participation in any accredited continuing education event in order to ensure that your CE requirements are being met.

PLEASE NOTE, you should also keep detailed information in support of this summary. This sheet is provided only to aid in your own personal record keeping. It will not be received by the MVMA. It is not a substitute for receipts or other proof of CE attendance.
