# THE BUSINESS COACHING EXPERIENCE

Health leaders and practice owners train for many years to become experts in their clinical craft. Yet when they get out into the world, many find themselves in management or ownership positions, board positions, committees, councils, and more. These additional roles require skill that expands beyond clinical training and we are here to help.

The Business Coaching Experience includes 20 meetings over the course of a year (up to 90 minutes each).

The coachee sets the agenda for these meetings and we will discuss, coach, and support you through the pain points you are experiencing. We will share our available tools, templates, and supports to help you overcome the business and management challenges of the moment.
